Pipsico Shooting Weekend

This was a great outing for the troop as we haven’t done any shooting in a while. This trip was a little chilly. There were three groups which rotated between 3 stations. After the first station we made lunch. In one of the stations we hiked around the camp and looked at old foundations. In another station we built bows out of sticks we found in the woods. And the last station was rifle shooting and shotgun shooting. In the evening we had a tournament for the shotgun and rifle shooting. Vincent won the shotgun shooting and Mathew won the rifle. In the morning the patrols made breakfast, then packed up gear and left.
