This weekend Troop 16 went on 2 different canoe trips: one to the Tye River in central VA and the other to the Chickahominy River in Jamestown.

From what I heard and saw this weekend everyone had fun! On the Tye River we had a couple flips both days, but everyone got back up and kept on down the river. The first day, the water level was pretty high and the river was moving pretty fast. That made it a lot of fun! When we got back the first day everyone wanted to go on the rope swing. The guys enjoyed that a lot!
A couple of people attempted some flips, Charles was the only successful one, but overall it was a fun day. The second day on the river was a little bit different. The water level had dropped and the water wasn’t moving as fast. We also canoed a different section of the river. That section had quite a bit more rocks we had to look out for. Overall a great weekend on water!
