

BSA Troop 16 History – Sept 8 – 10

Tye River

Troop 16 has recently gone on a white-water canoeing trip down the Tye River. The land of this river is owned by the Ellenors, and we thank them for letting us use it for our campouts every year. One of the notable things about this campout compared to others is its lack of cell service. This means that all of the scouts, including the adults, wouldn't be able to use their phones for anything. That makes this trip very special since everyone had to talk to each other and appreciate the environment we were in. Once we got to the campground, we set up camp and very quickly went to sleep. Once we got up in the morning, we cooked breakfast and loaded all of the canoes into the water. A few people even brought their own kayaks to use on the river. We were on the rapids for a good 5 hours which means we also ate lunch on the water. After we finished going down the river we unloaded from our canoes and kayaks and put them back on the trailer. We drove back to camp and just hung out for the rest of the night. A few of the scouts set up a fire and we sat around that until we went to bed.
